**SUN 31 MARCH 2024**

#### SHARED GAME DRIVES

Game drives are the signature activity on any African safari. On game drive, guests head out on a 10 seater specialised safari Land Rover with an expert ranger and tracker. The vehicles are optimised for game viewing and at Royal Malewane we take a maximum of 6 on each vehicle for optimal comfort. To view game is to lose yourself in a powerful and startling drama. During a game viewing excursion, your senses sharpen, excitement grows, you draw close to the most remarkable animals as they hunt, play and sleep. Game drives at Royal Malewane are tailored to suit your interests, so you can track your favourite animal or see the birds, flowers or trees that you love most.

On a typical day on safari, guests will be woken by their ranger before sunrise. Sunrise and sunset are times when many animals are at their most active before and after the heat of the day arrives and chases much of the wildlife into repose. After a quick cup of coffee and a light snack, the morning game drive begins. Game drives usually last between 3 and 4 hours. After morning game drive, guests will be served a hearty breakfast following which guests can relax or enjoy other activities. Afternoon game drives set off at around 4pm and often go on after dark so that guests can see some of Africa's nocturnal creatures. Guests will return to camp for a sumptuous dinner under the stars if the weather permits.

#### BUSH WALKS

For those that want to get even closer to nature, our highly qualified rangers and trackers will lead guests on foot through the wild African bush. Stroll among the Big 5 (lions, leopards, rhinos, elephants and buffalos) and glean rare insights into our natural world, focusing not only on animals, but on the biodiversity of habitats and plant life. Bush walks generally leave after breakfast and your early morning game drive.

## DAY BY DAY ITINERARY

The award-winning Waters of Royal Malewane Bush Spa located at Malewane Lodge is a magical and tranquil space in complete harmony with the natural surroundings. Enjoy a relaxing massage or a pampering beauty treatment. For a more romantic experience, couples can enjoy the Moroccan sunken baths.

Wilson was a part of The Royal Portfolio family since we opened our doors in 1999 and was a formidable part of the guest experience at Royal Malewane, his incredible love and wisdom for the bush having a lasting effect on all he encountered.

Located right on the water's edge The Masiya Bar showcases our fabulous collection of gins and over 50 whiskies. Guests will be able to share stories of the day's adventures over a cocktail or a glass of wine.

### MOHOLOHOLO – WILDLIFE REHABILITATION CENTRE (OPTIONAL ACTIVITY, COSTS NOT INCLUDED)

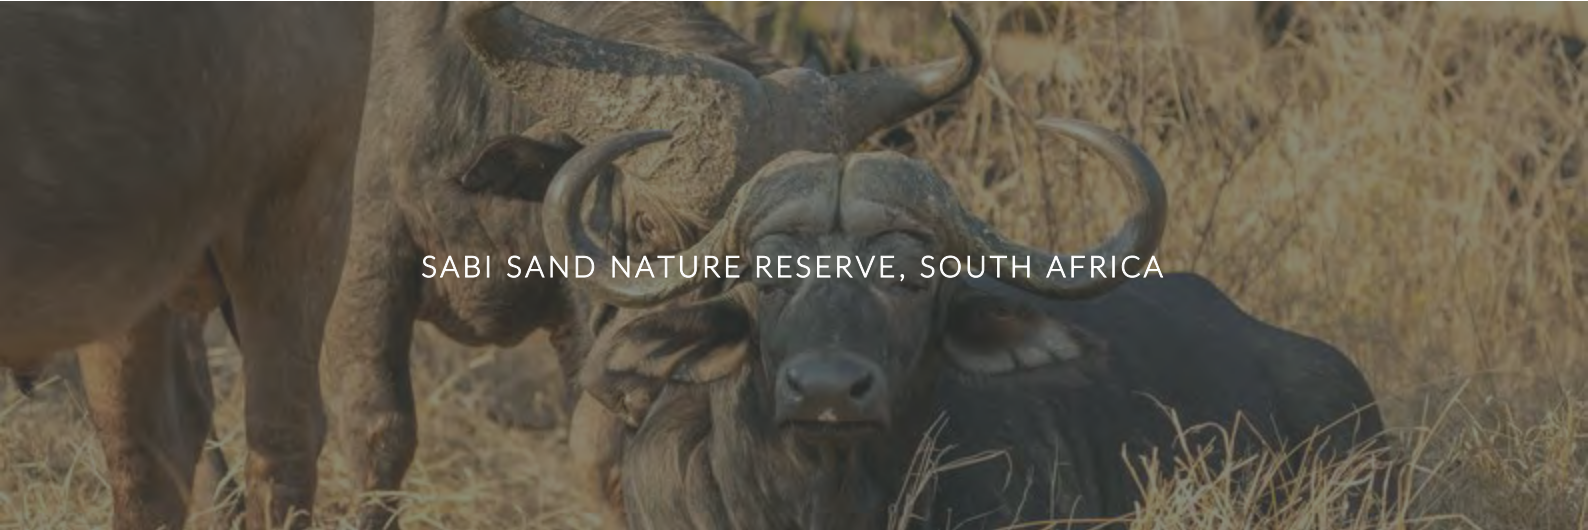

Situated in the shadow of the majestic "Mariepskop" this unique conservancy is home to many wild animals. A visit to the Moholoholo Wildlife Rehabilitation centre is an unforgettable experience. A wide variety of birds and animals can be seen here, where Brian Jones and his team nurture the injured and orphaned, rehabilitating them for release back to the wild wherever possible. Those that are not so fortunate, due to the nature and extent of their injuries, are cared for in captivity to educate the many people who visit Moholoholo each year.

Guided tours through the Centre bring visitors in close contact with both common and rare species such as the Crowned and Martial eagles, Owls & Vultures as well as Serval, Wild Dogs, Lions, Leopard and many other animals and birds.

The Wildlife Rehabilitation Centre at Moholoholo contributes to the conservation of endangered species and the rehabilitation of injured and poisoned wildlife. Moholoholo also facilitates a number of successful breeding programs.

Watch crocodiles slip off the banks as you approach and listen to the snorting hippos. In the drier months the skipper will anchor near “Ellie Corner” where you can spot herds of elephants as they drink, play and bathe on the river’s edge nearby. You could also be lucky enough to see baboon, impala, warthog and buffalo. The birding is sublime.

### SIGNATURE CANOE TRIP WITH A PICNIC

As an homage to our family's personal history on the Zambezi River, we offer picnics along the banks of the river just as our family had picnics in the past: Persian carpets, hammocks, Pimms upon arrival, picnic tables and sumptuous tapas lunches or breakfasts which will find you restoring your soul while listening to the rapids coursing past you.

Start with a leisurely paddle down the Zambezi to our secret picnic spot on an island - and enjoy a truly indulgent and creative meal on the banks of the river. Cocktails, homemade cordials, a gin bar... It's romantic, fun and offers up delicious flavours. You will go over some very gentle rapids - and you will get wet! You can choose to paddle (as little or much as you want), or just sit back and let the guides do all the work.

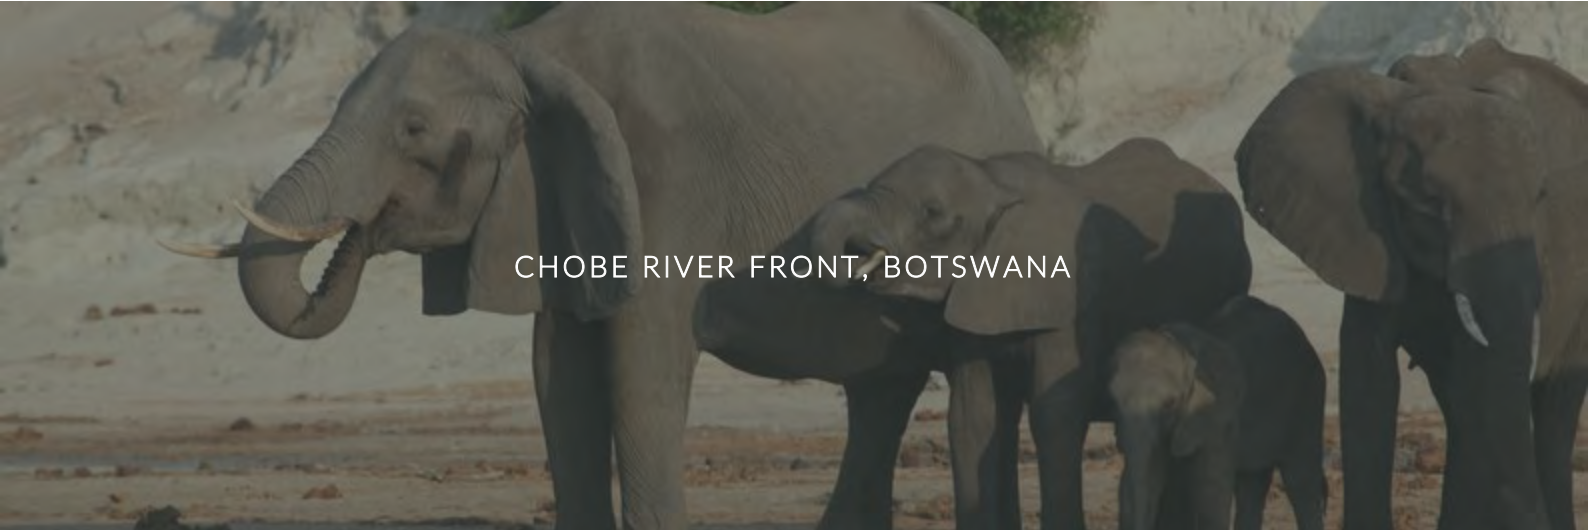

A hat and sunscreen are essential!

### KATOMBORA ISLAND WALK

Step off the boat onto our wild islet downstream from River Lodge and discover this untamed microcosm of nature for yourself. A guided walk past python creepers, 23 baobabs, and 2,000-year-old Jackalberry trees. Our experienced guides will share their knowledge with you about the traditional and medicinal uses of the flora you will come across on the island. Untainted by development or animals, beside the odd baboon, this area represents the perfect ecosystem at play.

Sundowner cruises are also a great way of seeing buffalo up close as they come out of the shade to graze in the cooler evenings and elephants as they wade in the river. Chobe is renowned for its abundance of dramatic sable and roan antelopes with their impressive horns. ### LAND GAME ACTIVITIES

Xigera Safari Lodge offers guests the freedom to create their own Okavango Delta adventure, which is why we offer a uniquely flexible approach to our daily game drives. While there is always the option of an early-morning drive – when the cooler temperatures offer ideal conditions for game-viewing – guests who prefer a slower start to the day, perhaps with a rejuvenating yoga session on the spa deck, may also choose to head out later in the morning.

When out on drive, guests will soon discover just why Xigera's location is so remarkable. Situated on the western fringes of the Moremi Game Reserve, the surrounding islands and grassland promise some of the finest wildlife viewing opportunities Botswana has to offer. While the Okavango is perhaps most famous for its watery channels, expert guides to lead you, look forward to unforgettable wildlife encounters on land.

**Land** - The art of adventure - Daily land excursions allow guests to immerse themselves in the wonders of the Okavango Delta, a region as famous for its tawny grasslands and verdant riverine forests as the flood plains that fill with crystal clear waters each year. On both 4x4 game drives or thrilling bush walks, our expert Xigera guides will help you discover the magic and mystery of this unmatched wilderness.

### WATER BASED ACTIVITIES

Water is life at Xigera. As the floodwaters ebb and flow, they provide unforgettable opportunities to discover the wilderness from an entirely new perspective. An experience unique to the Delta is a morning spent gliding along flooded channels by mokoro, the dugout canoe used by generations for transport in a region where there are many more rivers than roads. Though traditionally carved from a single tree trunk, at Xigera Safari Lodge our innovative glass-bottomed mokoro – constructed from sturdy fibre-glass – allow for incredible views of the Delta both above and below. While mokoro are perfect for discovering the filigree of smaller channels, catching fleeting glimpses of African pike or bright-green nembwe fish, motorboat excursions allow for exploration of the deeper rivers and lagoons that are home to crocodile and large pods of hippo.
